

THE MOST IMPORTANT STEP WHILE WALKING YOUR DOG:

The health of your neighborhood and its environment relies on the behavior of its residents. That's why it's important for dog owners to pick up their dog's waste. It's illegal to leave it because it will eventually be washed into the street, down the gutter and into a storm drain. End of problem? No, just the beginning. Storm drains lead straight to our waterways, with no filtration. The bacteria from your pets waste contaminates a basic, natural, environmental resource...water. All living things, people and pets, need clean water to survive.

To report storm water
pollution concerns, call the
24-hour hotline at

576-6721

**Next time you walk
your dog, please take a
plastic bag to pick up
your dog's waste and
throw it in the trash.**
